ABSTRACT

The report titled **"Internship at Deerwalk Services Pvt. Ltd. Web Based Application Development"** discuss about the position, working behavior, tasks, and overall structure of Deerwalk Services Pvt. Ltd. and the task that I have performed throughout my internship. For ease of understanding, I have divided this report into four chapters.

In first chapter, I have included the objective of doing internship, methodology used during preparation of report and the limitations. The limitations have constrained this report for using many components which are not disclose able.

In second chapter, I have included the organizational details. This chapter includes the introduction of the company, the structure of the company, its management hierarchy, functional departments of Deerwalk, services provided by Deerwalk and the future plan of the company.

The third chapter is focused on the description of job that I have performed in Deerwalk. It consists of job nature, responsibilities, different aspects of job performance and critical observations in during job performance. Fourth chapter includes Implementation and Testing.

The fifth chapter includes the conclusion and finding of my internship period. I have included what I have learnt during my internship period. I have concluded my findings in this section.

Besides, I have included some screen shots of format of report and a script of procedure that I have prepared in Deerwalk.
